The Presidents National Societies Meeting

The presidents of all national societies of transfusion medicine are invited to join a meeting during the ISBT congress in Berlin. It is the first time that such a meeting takes place. The purpose of the meeting is for the presidents to get to know one another on a personal basis and at the same time to report about some essential issues about transfusion medicine in their countries. ISBT will present some key elements of the organization and the strategy of the society in the field of transfusion medicine and wants to discuss possible cooperation between national societies and ISBT. Coffee, tea and cake will be served at the close of the meeting.
